

From the Windshield Experts

Z2430

Z2430 VStream® Sport Windshield for F 800 S/ST

The Z2430 VStream windshield adds more wind protection and a quieter ride to the sporty F 800 S. Made from a combination of tough polycarbonate with a durable FMR hardcoat, ZTechnik's windshield not only looks great, but is 20X more impact resistant than an acrylic (aircraft plastic) windshield.

When used on the F 800 ST, the Z2430 offers sporty looks with enough additional width and height over the stock ST windscreen for noticeably better wind protection.

Z2431 VStream® Tour Windshield for F 800 ST/S

ZTechnik takes the F 800 ST and moves it up a class, not by changing engines but by changing windshields. Your riding time on the ST will never be the same after you install an aeroacoustic VStream windshield. The same quality materials go into the Z2431 as the Z2430.

F 800 S riders will also appreciate the added wind protection on longer rides.

Z2430 Sport or Z2431Tour – the choice is yours!

Z2430 H: 16.50" (41.9cm) W: 16.00" (40.6cm)
4.5mm FMR coated Lexan® polycarbonate; Clear

Z2431 H: 19.00" (48.2cm) W: 17.00" (43.2cm)

VStream – The Quietest Windshield Ever

A Simple Premise: More windshield surface area equals more protection. See for yourself:

Z2430 VStream	Stock F 800 S Windshield
H: 16.50" (41.9cm)	H: 11.00" (27.9cm)
W: 16.00" (40.6cm)	W: 12.75" (32.4cm)
Z2431 VStream	Stock F 800 ST Windshield
H: 19.00" (48.2cm)	H: 15.00" (38.1cm)
W: 17.00" (43.2cm)	W: 15.00" (38.1cm)

The VStream offers more than just added protection. The unique design delivers improved aerodynamics and a quieter ride – without sacrificing style and performance!

Looks Great! Sounds Great!

F SERIES ST/S

Your Engine Warranty Remains Valid When You Step Up to a ZTechnik Exhaust System!

Z4060 Slip-On Canister for F 800 ST/S

If you want to pull away from the competition with form, function and performance, ZTechnik is the only line to take!

The new Z4060 Stainless Steel Slip-On Canister is the perfect match for every F 800 S/ST rider who wants to step it up a notch on the twisty roads or on those long hauls. With a 6.0 ft. lb. torque increase and a noticeable boost in horsepower, this will be a must-buy for every rider who wants better looks and greater performance.

The Z4060 features a slimmer canister profile with a gorgeous brushed stainless steel finish, and is 6.92 lbs. lighter than the stock muffler.

Like the Z4062 Complete Exhaust System, this slip-on also features ZTechnik's removable dB Killer™ for an aggressive sound you're sure to like.

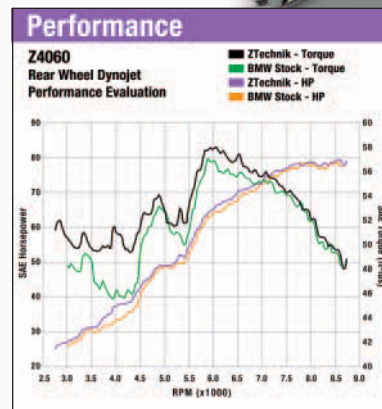

Exhausts

The new ZTechnik Z4060 Slip-On Canister features an easily removable "Decibel Killer", giving the rider a choice between stealthy quiet and a healthy growl.

Wait – It Gets Even Better!

Z4062 Stainless Steel Header System for F 800 ST/S

Take a look at the new Z4062 Header System for the BMW F800S/ST. Designed to work with ZTechnik's Z4060 Stainless Steel Slip-On Canister, the Header System provides an additional performance boost with a total of 7.6 ft. lbs. of torque in a lightweight, well-engineered package.

The quality and craftsmanship of the entire system is refined for power and appearance. Equal length header pipes feature precision machined and welded couplers, providing you the benefit of a perfect fit and a tight, long lasting seal.

The Z4062 Header System with our Z4060 Slip-On Canister weighs 8.3 lbs. less than the OEM exhaust system.

The Z4062 also works with the stock centerstand, so performance and practicality need not be mutually exclusive.

It's the Real Thing

- Z8500** Carbon Fiber Tank Protector for F 800 ST/S
- Z8603** Carbon Fiber Gauge Panels for F 800 ST/S
- Z8891** Carbon Fiber Fuel Cap Trim for F 800 ST/S

Genuine carbon fiber cloth comes alive under a crystal clear, poured resin topcoat. And ZTechnik's close attention to detail and precision fit means all the edges will fit exactly to your bike's bodywork.

Our carbon fiber won't fade and white out like the faux carbon fiber commonly available. These will last many years and still look like new.

Get the cutting edge look of carbon fiber without the cutting edge bite on your budget.

Z8604 6-Piece Carbon Fiber Trim Set for F 800 S

The 6-piece Z8604 Carbon Fiber Trim Set is designed specially for the F 800 S, and includes the Gauge and Upper Triple Clamp Carbon Fiber components.

It's All in the Details

Z8703 Carbon Fiber Engine Trim Set for F 800 ST/S

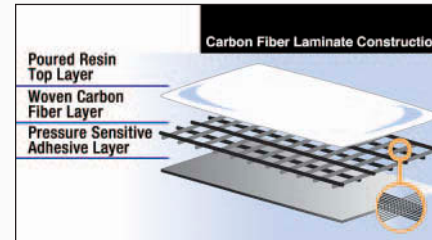

If you like the look of carbon fiber, ZTechnik's trim sets won't disappoint you. Genuine woven carbon fiber cloth comes alive under a crystal clear, poured resin topcoat, ensuring many years of use. These kits won't fade and bleach out like the faux "carbon fiber".

A pressure sensitive, die-cut adhesive backing is applied to each piece that safely but securely attaches the carbon fiber to your bike. And ZTechnik's close attention to precision fit will produce pleasing and professional results.

The 6-piece Z8703 Carbon Fiber Engine Trim Set is designed specially for the F 800 S and F 800 ST, and includes the pieces shown for the right side engine cases. These really make your motor look like the engineering masterpiece it is!

Stand out from the rest... with ZTechnik!

Z8703

After the carbon fiber piece is lasercut, a clear resin is carefully applied to produce an even, radiused edge. This edge produces a fluid transition from the carbon fiber piece to the contact surface of the motorcycle at all points.

A pressure sensitive adhesive backing is then applied that securely, but safely, attaches the piece to your bike.

You Can See Clearly Now

Z2261 Tall Replacement Screen for F 650 CS

Z2263 Tall Replacement Screen for F 650 GS

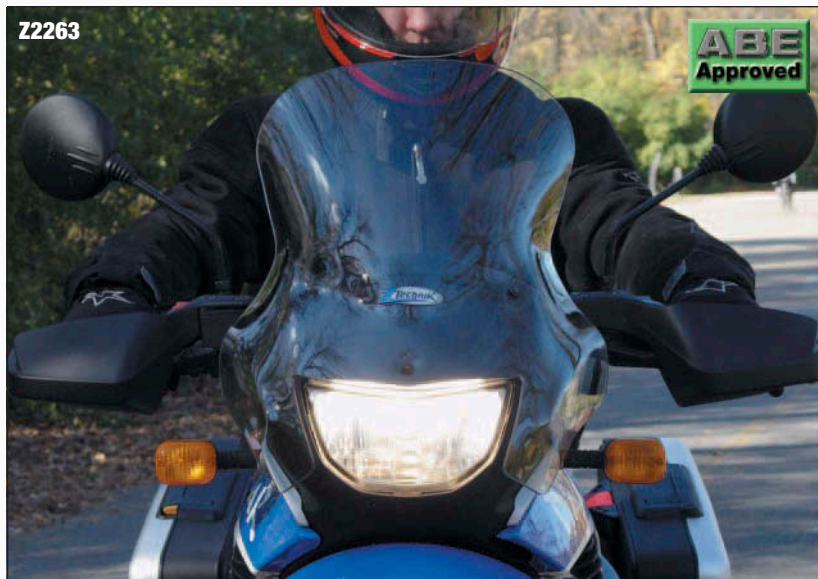

FMR hardcoated Lexan® polycarbonate gives these windshields an optical clarity and an edge quality that can't be matched, and make these replacement screens an unbeatable value.

Z2261 stands 3.75" taller than stock. It also features a more upright angle for additional coverage. An innovative shape ensures a smooth airflow behind the shield, reducing wind noise and "buffeting."

The Z2261 mounts to the F 650 CS in minutes using existing mounting bolts. A light tint enhances the F 650's modern looks while providing excellent visibility.

The Z2263 measures 16" tall (1/2" taller than stock) and 15.5" wide. The shield also features a more upright angle, and an innovative shape to ensure a smooth airflow behind the shield. The result is a noticeable reduction in wind noise and "buffeting." The Z2263 mounts to the 2001-03 F 650 GS Dakar in minutes using three existing mounting holes and includes all additional hardware.

These windshields will provide great looks and enhanced wind protection for years to come. This is because the FMR Lexan® polycarbonate construction offers 20x the impact resistance and 23x the crack resistance of the acrylic used in most aftermarket shields. The tough FMR coating, meanwhile, offers three times the abrasion resistance of most acrylic shields.

Z2261 H: 17.25" (43.8cm) – 3.75" (9.5cm) taller than stock
4.5mm FMR coated Lexan® polycarbonate; Light Tint

Z2263 H: 16.00" (40.6cm) W: 15.50" (39.4cm)
4.5mm FMR coated Lexan® polycarbonate; Clear

Application

F 650 GS Dakar* 01-03		<input checked="" type="checkbox"/>	Z2263

* Will fit standard 2000-03 F 650 GS models with purchase of additional bodywork #71-60-7-653-849 from BMW.

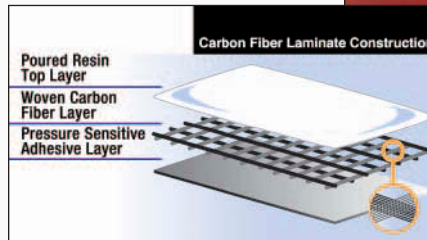

Stylish Paint Protection

Z8500 Carbon Fiber Tank Protector

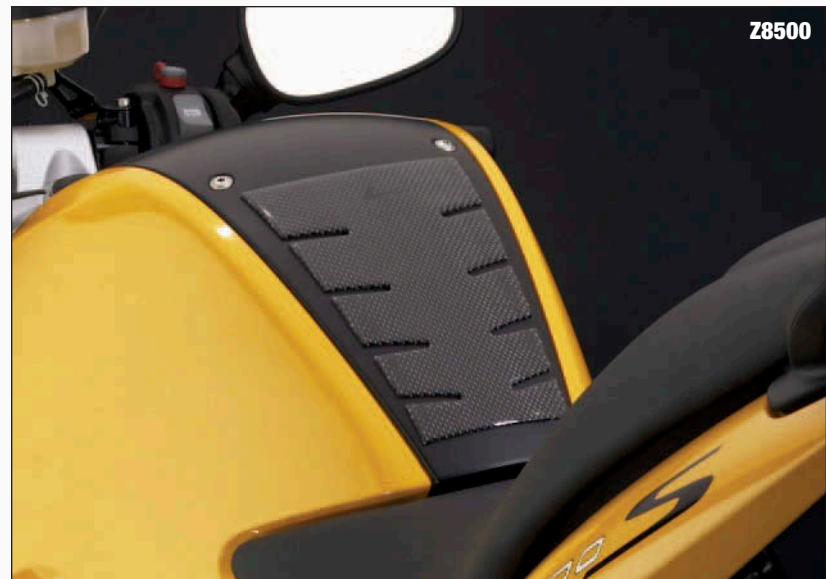

Z8890 Carbon Fiber Fuel Tank Trim

ZTechnik uses only genuine carbon fiber cloth under a crystal clear, poured resin topcoat. ZTechnik's close attention to detail means the smooth radius edge of the trim piece will flow into the surface of the motorcycle's bodywork.

After the carbon fiber piece is lasercut, a clear resin is carefully applied to produce an even, radiused edge. This edge produces a fluid transition from the carbon fiber piece to the contact surface of the motorcycle at all points.

A pressure sensitive adhesive backing is then applied that securely, but safely, attaches the piece to your bike.
