Kick Some Major Butt

Z4031

Z4031 Complete Titanium Exhaust System for K 1200 R/S

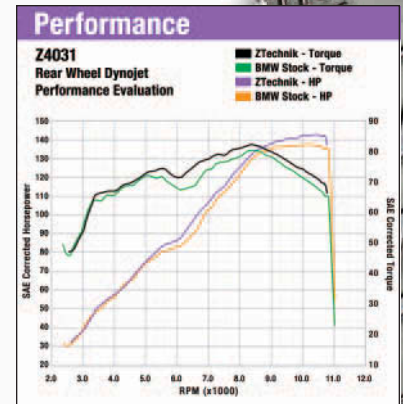

Your new BMW deserves only the very best – ZTechnik. The work on this exhaust system started with one of the world's top performance exhaust engineers and ended with a new exhaust that lets you carve your favorite twisty road with increased torque and horsepower, drastically reduced weight, and a confident yet refined growl.

During long term testing with ZTechnik's Z4031 system, another notable improvement in bike performance was discovered: the common low speed stumble, typical during throttle roll-off and when moving in and out of lower gears, was now completely eliminated!

The ZTechnik Z4031 Titanium Exhaust System is where form and function meet and blister the pavement!

- Gain of over 7 horsepower
- Amazing 14lb. weight loss
- Greatly improved throttle response
- Attractive titanium canister with laser-etched ZTechnik logo
- Beautiful Italian craftsmanship
- Titanium headers and 4-2-1 collector design
- Tapered diameter, equal length header tubes for best exhaust flow
- Improved fuel injection mapping
- Sounds like a performance motorcycle without being extreme

The Z4031 Titanium Exhaust System is not compatible with BMW optional centerstand on K 1200 R.

The short oval titanium canister of the Z4031 Exhaust System gives your bike a competitive, aggressive appearance. The compact design also results in a significant weight loss.

Your Engine Warranty Remains Valid When You Step Up to a ZTechnik Exhaust System!

Open Up a Can of Performance

Z4030 Titanium Slip-On Canister for K 1200 R/S

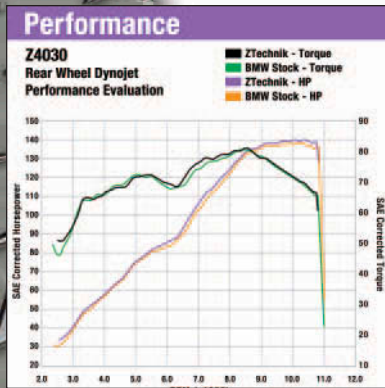

When it comes to making the best in performance exhaust systems for BMW motorcycles, there is no name more synonymous with both quality and horsepower than ZTechnik.

The newest addition to the ZTechnik exhaust family is the Z4030 Titanium Slip-On Canister. The Z4030 produces a solid boost in torque and horsepower with significantly reduced weight (9.2 lbs. less than stock) and the stunning appearance of finely finished titanium.

The Z4030 features a removable dB Killer™, giving the rider a choice between stealthy quiet and a healthy growl. The ZTechnik Z4030 Titanium Slip-On Canister is where form and function meet!

Z4030

Your Engine Warranty Remains Valid When You Step Up to a ZTechnik Exhaust System!

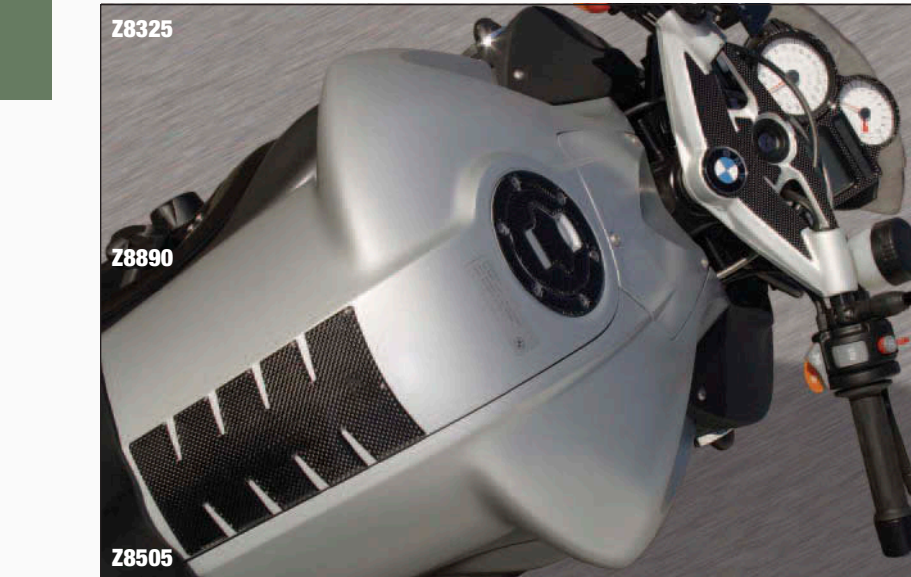

The titanium canister's oval design and downturn tip lend a strong appearance to accompany its strong performance. Best of all, ZTechnik Exhaust Systems will not void the factory engine warranty, so you don't need to wait three years to upgrade your bike's exhaust.
