

VStream – The Quietest Windshield Ever

Z2452 VStream® Windshield for K 1200 GT

ZTechnik takes a great touring bike and makes it even better with the aeroacoustic VStream windshield. Designed specifically for the 2006 and later K 1200 GT, the Z2452 replaces the stock windscreen with your new best friend and touring partner – the VStream!

The Z2452 does much more than effectively redirecting wind; it allows you to use your communication system in a quiet riding environment and, at the same time, stay warmer on those long Autumn rides.

Z2452 H: 25.25" (64.1cm) W: 23.75" (60.3cm)
6.0mm Quantum™ coated Lexan® polycarbonate; Clear

Change With the Weather

- Z2211** Tall Windscreen; Light Tint for K 1200 RS
- Z2212** Short Windscreen; Dark Tint for K 1200 RS
- Z2213** Tall Windscreen; Light Tint for K 1200 RS
- Z2214** Short Windscreen; Dark Tint for K 1200 RS
- Z2215** Short Windscreen; Light Tint for K 1200 RS

Change your K 1200 RS to suit the season or your riding style. ZTechnik offers taller-than-stock touring screens and short, dark sport screens.

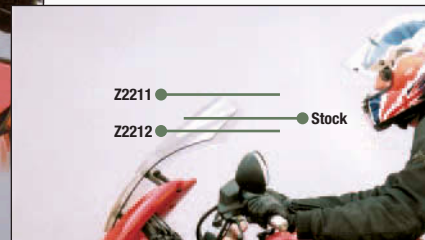

The tall screens, featuring just a hint of tint, are perfect for cooler weather and longer trips. The short versions are perfect for canyon carving and for giving your bike an aggressive look.

ZTechnik screens are made from FMR coated Lexan® polycarbonate and replace the factory original screens on early- and late-model K 1200 RS motorcycles, using the original mounting hardware.

Screen measurements as compared to OEM taken while windscreen is in fully raised position.

- Z2211** H: 20.00" (51.0cm)
 - Z2212** H: 14.00" (35.5cm)
 - Z2213** H: 21.00" (53.3cm)
 - Z2214** H: 13.00" (33.0cm)
 - Z2215** H: 13.50" (34.3cm) (25% smaller than OEM)
- All 4.0mm FMR coated Lexan® polycarbonate

Increase Your Performance

Z4030 Titanium Slip-On Canister for K 1200 GT

Born in Italy and bred on the racetracks, ZTechnik Exhaust Systems are synonymous with both quality and horsepower.

The newest addition to the ZTechnik exhaust family is the Z4030 Titanium Slip-On Canister. The Z4030 produces a solid boost in torque and horsepower with significantly reduced weight (9.2 lbs. less than stock) and the stunning appearance of finely finished titanium.

The Z4030 features a removable dB Killer™, giving the rider a choice between stealthy quiet and a healthy growl. The ZTechnik Z4030 Titanium Slip-On is where form and function meet!

Your Engine Warranty Remains Valid When You Step Up to a ZTechnik Exhaust System!

The titanium canister's oval design and downturn tip lend a strong appearance to accompany its strong performance. Best of all, ZTechnik Exhaust Systems will not void the factory engine warranty, so you don't need to wait three years to upgrade your bike's exhaust.

Less Weight – Sounds Great

Z4020
Z4020A

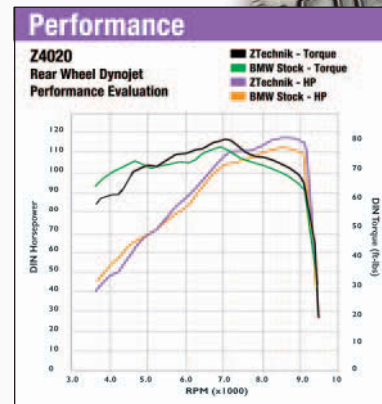

Z4020 Full Titanium Exhaust System Z4020A Full Titanium Exhaust System + Chip

Enjoy a broader torque curve and higher peak power by installing this great sounding titanium exhaust system. The Z4020 Titanium Exhaust System delivers a gain of 8.1 horsepower and 5 ft. lbs. of torque with a 27-pound weight savings over the stock system. The Z4020 includes titanium header pipes and a titanium canister.

The Z4020A is the same system with the Z4025 Performance Chip included. If you don't already have a Power Commander™ or Techlusion™ Fuel Injection Controller, you should consider the ZTechnik Z4020A for optimal fuel injection performance.

(Note: Z4020A and Z4025 not compatible with 1997-2000 K 1200 RS models.)

Your Engine Warranty Remains Valid When You Step Up to a ZTechnik Exhaust System!

Z4025 Performance Chip Z4020-001 Canister Repack Kit

The Z4025 Chip ensures the correct air/fuel ratio to optimize the performance of the Z4020 exhaust. The result is not only more torque and horsepower, but a smoother and more consistent delivery of that power with no flats spots.

The Z4020-001 Canister Repack Kit is available for the Z4020 and Z4020A. The Titanium Canister should be repacked every 10,000 km (6,200 miles).

High Tech and High Class

- Z8611** Carbon Fiber Gauge Panel for K 1200 GT
- Z8911** Carbon Fiber Rear Rack Trim for K 1200 GT
- Z8505** Carbon Fiber Tank Protector for K 1200 GT
- Z8890** Carbon Fiber Fuel Cap Trim for K 1200 GT

Genuine carbon fiber cloth comes alive under a crystal clear, poured resin topcoat. And ZTechnik's close attention to detail and precision fit means all the edges will fit exactly to your bike's bodywork. Our carbon fiber won't fade and white out like the faux carbon fiber commonly available. These will last many years and still look like new.

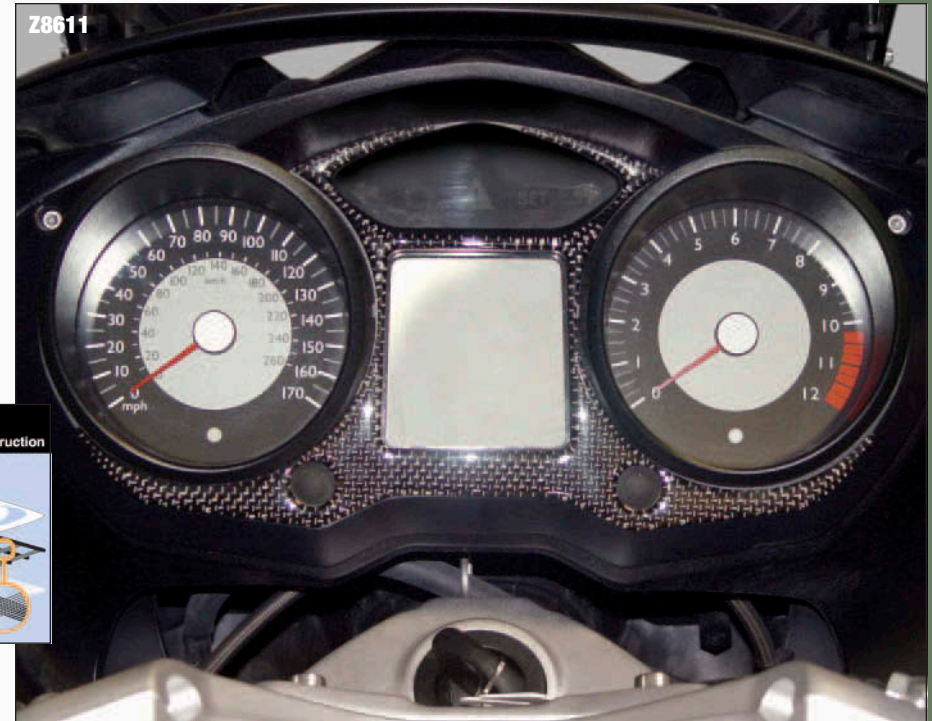

The Z8611 Carbon Fiber Gauge Panel adds a high tech appearance to the dash of your new K-GT, and the Z8911 Luggage Rack Trim takes good care of the other end of your bike.

Get the Complete Carbon Fiber Look! The Z8505 Carbon Fiber Tank Protector and the Z8890 Carbon Fiber Fuel Cap Trim are available separately to complete the sophisticated appearance of your new K 1200 GT.

After the carbon fiber piece is lasercut, a clear resin is carefully applied to produce an even, radiused edge. This edge produces a fluid transition from the carbon fiber piece to the contact surface of the motorcycle at all points.

A pressure sensitive adhesive backing is then applied that securely, but safely, attaches the piece to your bike.
