

The VStream for the R 1200 R

- Z2405** VStream® Windshield for R 1200 R (U.S.A.)
- Z2408** VStream® Windshield for R 1200 R (International)*

ZTechnik adds a world of sport touring comfort to the new R 1200 R with the aeroacoustic VStream windshield.

The Windshield

Two design features of the Z2405 and Z2408 work together to make an effective windscreen. The distinctive "V" lines formed directly into the screen surface propel the airstream with exceptional velocity. This, along with the wider top extension created by ZTechnik's patent pending V-shape (compared to the more rounded, narrow tops created by other windshield manufacturers), creates the maximum non-turbulent zone for this size of windshield.

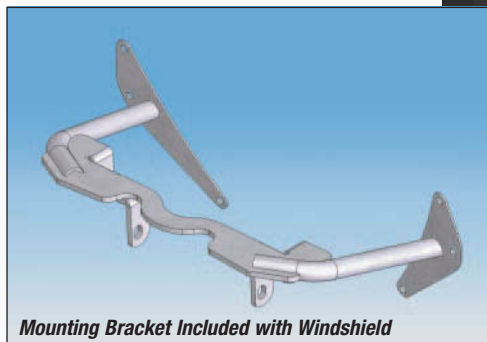

The windscreen material is super-tough polycarbonate, currently the strongest material available for motorcycle windshield use. Applied to the Lexan® polycarbonate is an FMR hardcoat that will hold up very well to surface abrasion and provide many years of riding pleasure.

Included with the Windshield is the Mount Bracket

ZTechnik creates the perfect solution! The original equipment touring bracket is not designed to accept a windscreen of a size that is this effective. The ZTechnik solution is to design and manufacture a silver powdercoated bracket to match the stock triple clamp and handlebar coloring and supply it together with the windshield at a great value to the rider.

A box joint of 7-gauge steel surrounds the upper "triple clamp" of the R 1200 R. High strength fasteners create tremendous torsional rigidity through another box joint to the "arms". The six points where the screen attaches to the arm extensions create a wide stance for optimal stiffness. The mass of the full thickness polycarbonate is not a problem, even at higher speeds and on the roughest roads.

ZTechnik's engineers have solved the problem once again!

Mounting Bracket Included with Windshield

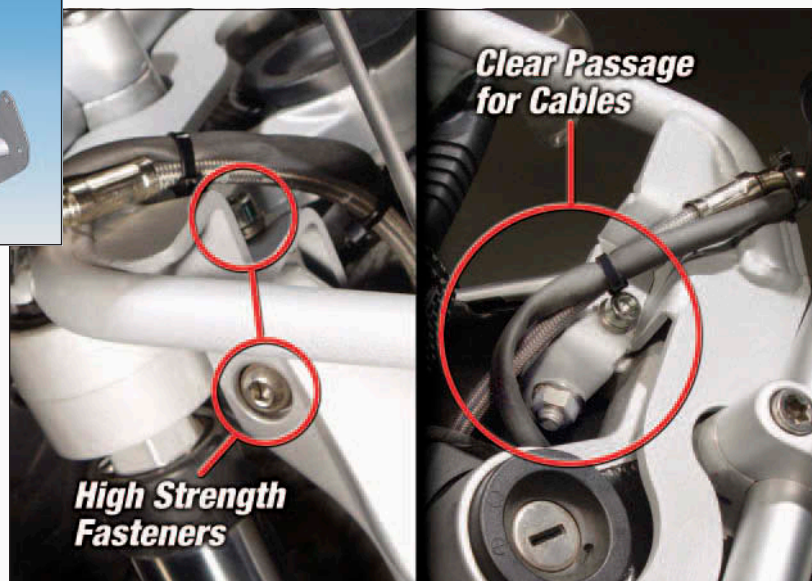

- Z2405** H: 18.75" (47.6cm) W: 17.50" (44.5cm)
 - Z2408** H: 18.75" (47.6cm) W: 17.50" (44.5cm)
- 4.5mm FMR coated Lexan® polycarbonate; Light Tint

* Turn signal spacing differs between U.S.A. and international models of the R 1200 R

More Comfort Means More Fun

Z2243 Rake Adjustable Windshield for R 1200 GS

Starting with the same features that make the Z2242 superior in performance, quality and optical standards, ZTechnik took R 1200 GS windshield rake adjustment one step further!

Adjust the Z2243 up to 3.2" (80mm) in rake – without tools – directly from the rider's position with an easy push or pull of the articulating arms! Rain up ahead? Push the articulating arms forward and your windshield will take a full upright position. Set the stock BMW rake adjustment feature at the height you want and then use the arms to adjust to your actual riding conditions.

Black anodized aluminum arms are good looking and will provide trouble free operation for years to come.

Stock H: 14.38" (36.5cm) W: 12.00" (30.5cm)
Z2243 H: 16.00" (40.6cm) W: 16.00" (40.6cm) at top; 18.00" (45.7cm) at bottom
 4.5mm FMR coated Lexan® polycarbonate; Clear

More Fun Means More Miles

Z2242 Windshield for R 1200 GS

The design of the Z2242 windshield from ZTechnik comes straight off the Autobahn!

Constructed about 2" (50mm) taller and 4" (50mm per side) wider, this windshield is designed for excellent wind and weather protection with substantially improved airflow.

Beyond the increased size, this windshield is made from 4.5mm hard-coated Lexan® FMR polycarbonate. It resists everyday abrasive wear 100x better than the stock shield. Also, it has excellent, distortion-free optical clarity. Your ability to see the road is not compromised with this high quality windshield.

The Z2242 utilizes the BMW rake adjust mount point, which remains operational!

The new size and optical quality of the Z2242 makes a measurable improvement over the stock screen. Only from ZTechnik!

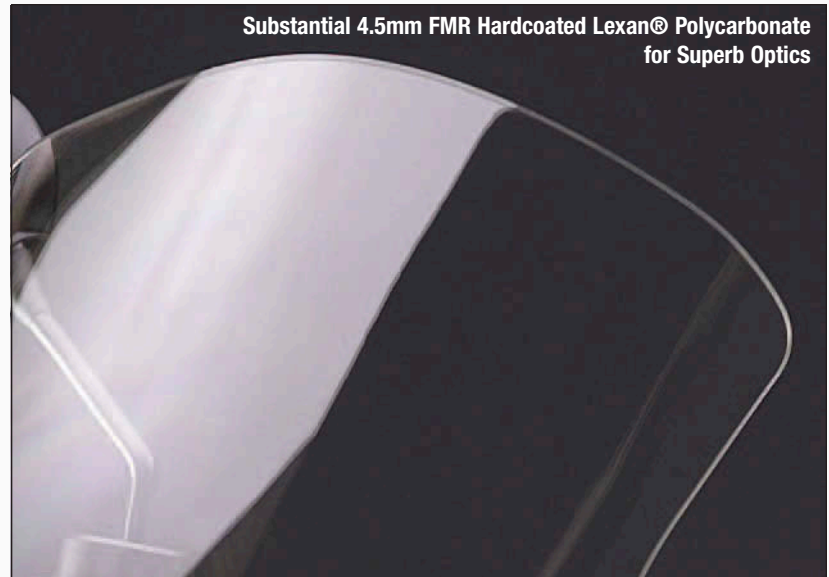

Stock H: 14.38" (36.5cm) W: 12.00" (30.5cm)
Z2242 H: 16.00" (40.6cm) W: 16.00" (40.6cm) at top; 18.00" (45.7cm) at bottom

More Miles Mean More Memories

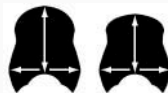

Z2240 Tall Windshield for R 1150 GS

Z2241 Short Windshield for R 1150 GS

Take away irritating wind noise, fatigue, debris, and rain with our restyled, hardcoated FMR Lexan® polycarbonate shields. These shields are designed to smooth out wind turbulence, protect you from the elements, and offer a viewing area with superior optical quality.

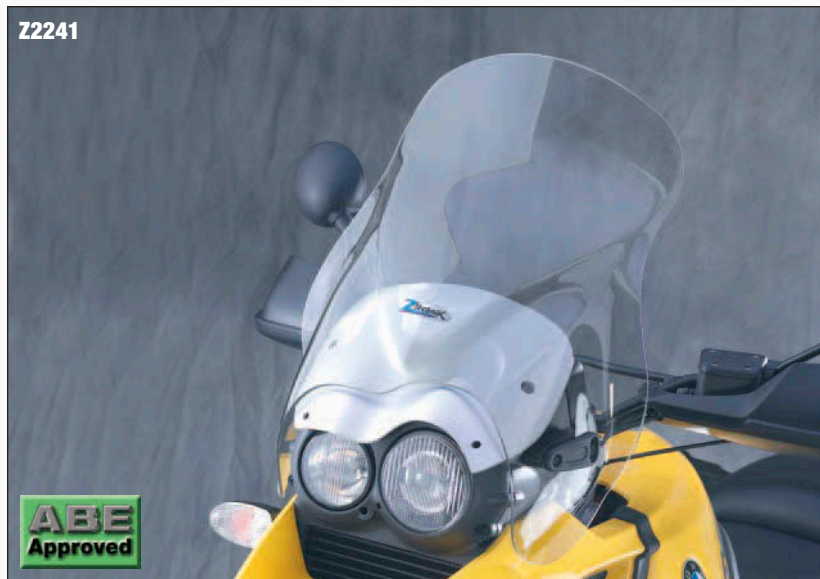

Both of these ZTechnik windshields are taller and wider than the original. ZTechnik gives you two sizes to choose from – the generously sized Z2240 or the sportier Z2241.

When it comes to raw materials, not all motorcycle windshields are created equal. ZTechnik makes these windshields from FMR hardcoated Lexan® polycarbonate for superior impact strength and crack resistance.

Z2240 H: 21.75" (55.2cm) W: 18.50" (47.0cm)
4.5mm FMR coated Lexan® polycarbonate; Clear

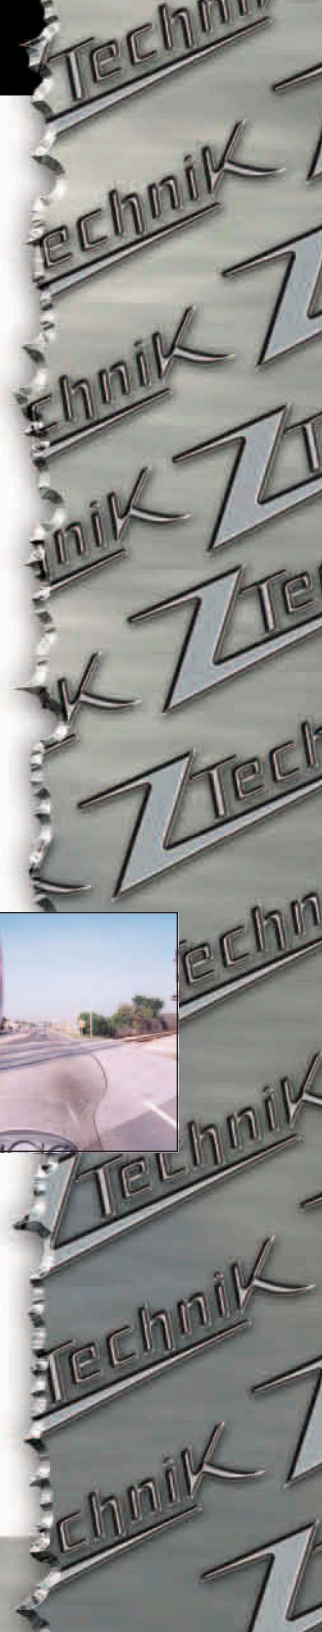

Z2241 H: 18.00" (45.7cm) W: 18.00" (45.7cm)
4.5mm FMR coated Lexan® polycarbonate; Light Tint

ZTechnik windshields are designed to the highest optical standards. Your view of the road, in traffic, over railroad tracks, or navigating potholes will not be compromised.

Shred Some Asphalt

Z4003

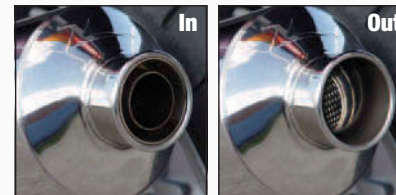

- Z4002** Stainless Steel Eurosport Slip-On Canister
- Z4003** Complete Stainless Steel Exhaust System

Two new ZTechnik Exhausts are now available for your new R 1200 R.

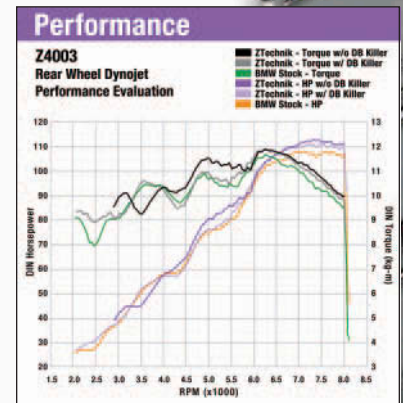

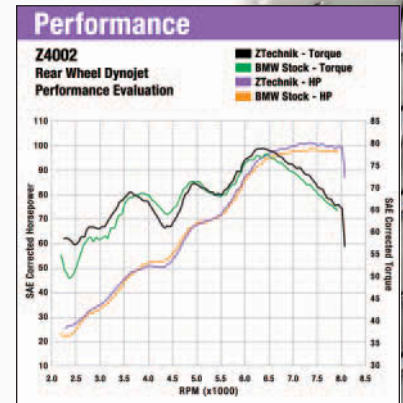

The Z4003 is a complete exhaust system with stainless steel headers and a polished stainless steel canister, while the Z4002 is the slip-on canister only. Both feature a removeable dB Killer™ baffle. Remove the baffle when you want that throaty exhaust note, or leave it in to enjoy the open road sounds when touring.

Whether you choose the Complete Exhaust System or just the Slip-On Canister, you'll appreciate a significant decrease in weight along with a pleasant welcome in horsepower and torque.

Needless to say, you'll enjoy a boost in overall appearance as well. The ZTechnik Z4002 and Z4003 are do-it-all systems that incorporates both style and performance.

The new ZTechnik Z4002 and Z4003 Exhausts features an easily removable dB Killer™, giving the rider a choice between stealthy quiet and a healthy growl.

Increase Your Fun Factor

Z4042 Titanium Slip-On Canister for R 1200 GS Z4042-001 Canister Repack Kit

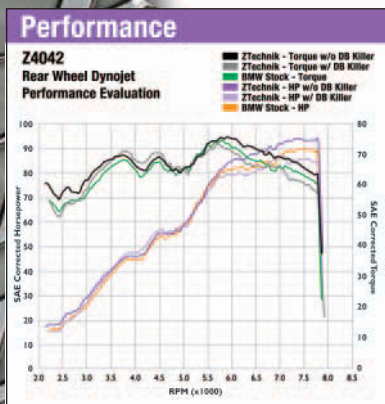

The R 1200 GS sets the standard for adventure touring bikes. And ZTechnik raises that standard for performance and fun with our new Z4042 Titanium Slip-On Canister.

Experience a 7.34 pound reduction in weight, improved horsepower and torque, and an attractive, aggressive look to your machine. And, with the removable dB Killer™, you'll also love the way it sounds.

The Z4042 Titanium Slip-On Canister... try some adventure on for size!

Your Engine Warranty Remains Valid When You Step Up to a ZTechnik Exhaust System!

You should repack your Titanium Exhaust System every 6,200 miles (10,000 km).

Slip Into Something a Little More... Awesome

Z4040

- Z4040 Titanium Slip-On Canister
- Z4041 Canister Lowering Kit
- Z4040-001 Canister Repack Kit

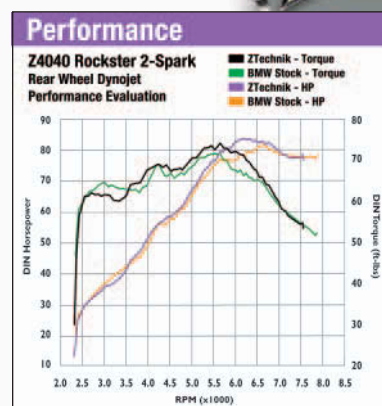

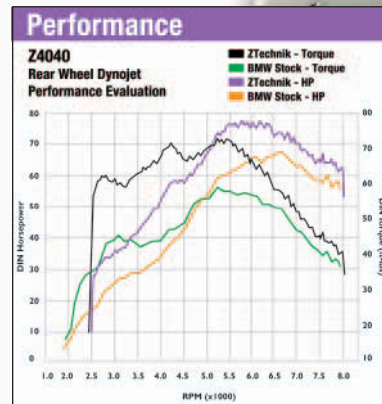

This Z4040 Slip-On Canister will take your bike to new levels of performance. This ZTechnik exhaust provides 50% more torque between 2500-5000 RPM and 10 more peak horsepower* at 5500 RPM, while producing an improved, deep sound (90db at 3 ft., 4000 RPM).

ZTechnik's Z4041 Canister Lowering Kit lets you have the aggressive looks and sound you want, but still have the necessary clearance for the factory 32-liter left side saddlebag.

Note: The Z4041 Canister Lowering Kit works with ZTechnik's Z4040 Titanium Slip-On Canister only – not with the OEM muffler.

Your Engine Warranty Remains Valid When You Step Up to a ZTechnik Exhaust System!

**Twin spark models have more horsepower than single spark models due to improvements and upgrades BMW made to the Twin Spark engine. Consequently, the installation of a ZTechnik Z4040 exhaust will yield higher horsepower increases for single spark models than with twin spark models.*

Lose Weight, Ride Longer

Z4000 Stainless Steel Eurosport Slip-On Canister

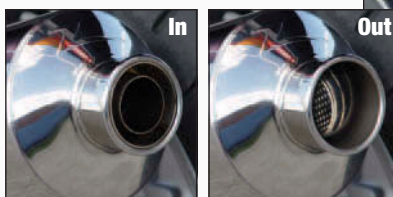

The ZTechnik Z4000 Slip-On Canister enhances your riding experience! The Z4000 features a polished stainless steel canister that never requires repacking, and mounts with enough clearance to utilize the stock BMW saddlebags.

Since the Z4000 employs a removable dB Killer™, it offers the rider a choice between stealthy quiet and a healthy growl.

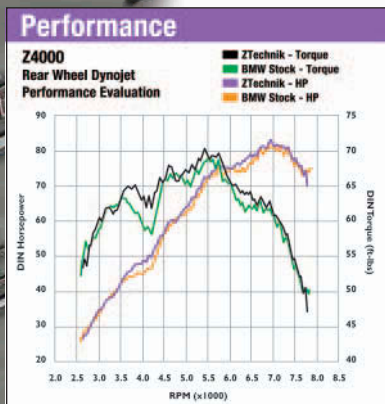

Experience a weight loss of 54%, better performance, and broader torque. It will put a smile on your face.

Your Engine Warranty Remains Valid When You Step Up to a ZTechnik Exhaust System!

The ZTechnik Z4000 features an easily removable dB Killer™, giving the rider a choice between stealthy quiet and a healthy growl.

It's the Real Thing

- Z8502** Carbon Fiber Tank Protector for R 1200 R
- Z8603** Carbon Fiber Gauge Panel for R 1200 R
- Z8901** Carbon Fiber Luggage Rack Trim for R 1200 R
- Z8891** Carbon Fiber Fuel Cap Trim for R 1200 R

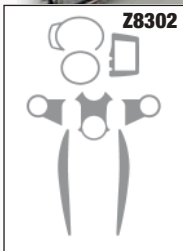

Genuine carbon fiber cloth comes alive under a crystal clear, poured resin topcoat. And ZTechnik's close attention to detail and precision fit means all the edges will fit exactly to your bike's bodywork.

Our carbon fiber won't fade and white out like the faux carbon fiber commonly available. These will last many years and still look like new.

Get the cutting edge look of carbon fiber without the cutting edge bite on your wallet.

Z8302 8-Piece Carbon Fiber Trim Set for R 1200 R

The 8-piece Z8302 Carbon Fiber Trim Set is designed specifically for the R 1200 R, and includes the Gauge Panels, Triple Clamp Inserts and Tank Top Trim. R 1200 R riders can also add the optional Z8891 Carbon Fiber Fuel Cap Trim and Z8502 Carbon Fiber Tank Protector to complete the aggressive look.

- Z8890** Carbon Fiber Fuel Cap Trim

ZTechnik's Carbon Fiber Trim pieces are a great value. Transform the look of your machine with these easy-to-apply panels. Nothing says cutting edge like genuine carbon fiber.

Z8640

Z8890

Z8941

ZTechnik Carbon Fiber is here for the R 1200 GS! Specially made for this awesome motorcycle are two unique pieces: the Z8941 Rear Rack Trim and the Z8641 Gauge Panel Trim.

Add the Z8500 Carbon Fiber Tank Protector and Z8890 Fuel Cap Trim to finish the appearance upgrade.

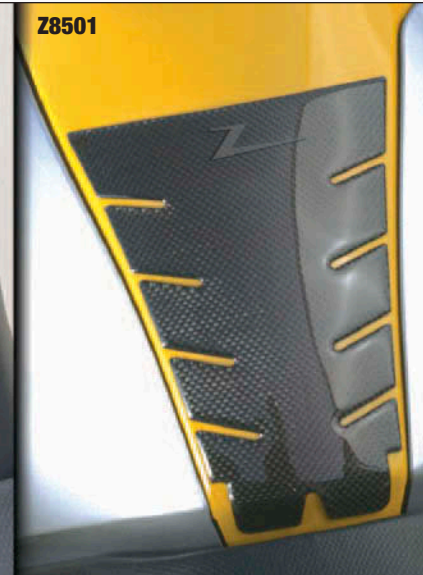

Z8641

Z8601

Z8500

Z8501

After the carbon fiber piece is lasercut, a clear resin is carefully applied to produce an even, radiused edge. This edge produces a fluid transition from the carbon fiber piece to the contact surface of the motorcycle at all points.

A pressure sensitive adhesive backing is then applied that securely, but safely, attaches the piece to your bike.

A Difference of Night and Day

Z5142

Z5142 Xenon HID Light Kit for R 1200 GS

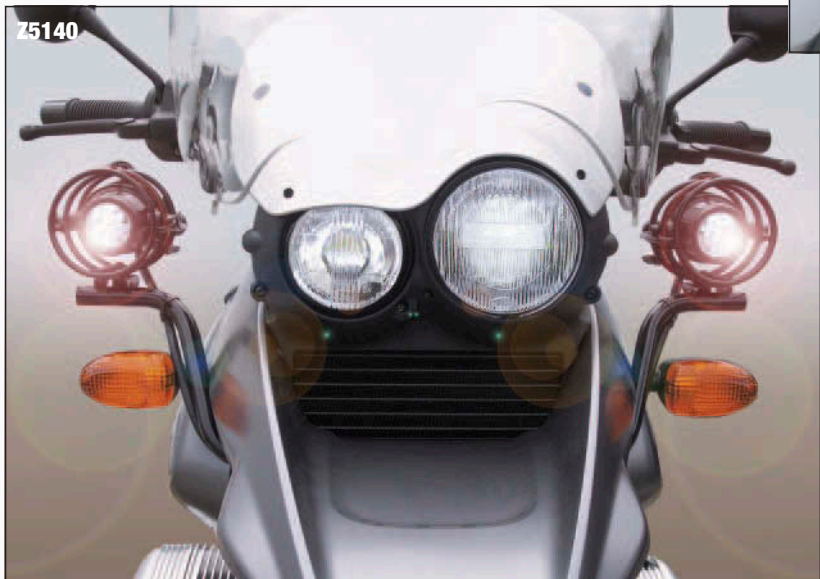

Z5140 Xenon HID Light Kit for R 1150 GS

These Xenon HID Accessory Lighting Kits provide bright illumination in a rugged package. With diecast magnesium housings protected by a steel cage, these HID (High Intensity Discharge) lights produce a wider range of vision with brighter and more evenly distributed light.

Fully equipped with a solid state ballast for each lamp, the operational voltage is 25,000 volts. The on/off power is conveniently wired into the turn signal cancellation switch. To activate or to deactivate, simply hit the turn signal switch twice, hold, and release.

ZTechnik HID Lights feature independent left and right angle adjustments. Life expectancy for the lamps is in excess of 10,000 hours! Magnesium housings with a special coating provides lasting durability.
