

## Z2404 VStream® Windshield for R 1200 ST

This windshield will convert those riders who could never imagine that the R 1200 ST canyon carver could be such a great sport touring motorcycle! The Z2404 will effectively direct the wind away from your chest and shoulders and still give your bike that sporting appeal.

Z2404 H: 12.00" (30.5cm) W: 19.25" (48.9cm)  
6.0mm Quantum™ coated Lexan® polycarbonate; Clear

## Z2202 Dark Tint Windshield for R 1200 ST

At first glance, you realize ZTechnik gave a rich dark color to their ST screen. Beyond that, what separates ZTechnik's ST windshield from the others is the world's toughest motorcycle windshield material with state-of-the-art Quantum™ coating. ZTechnik uses 4.5mm Lexan® polycarbonate with Quantum coating for outstanding windscreen longevity and superb scratch resistance. Every ST owner will want this strong and beautiful shield to complement the aggressive lines of their bike.

# The ZTechnik Weight Loss Plan

Z4003

**Z4002** Stainless Steel Eurosport Slip-On Canister

**Z4003** Complete Stainless Steel Exhaust System

Two new ZTechnik Exhausts are now available for your R 1200 ST.

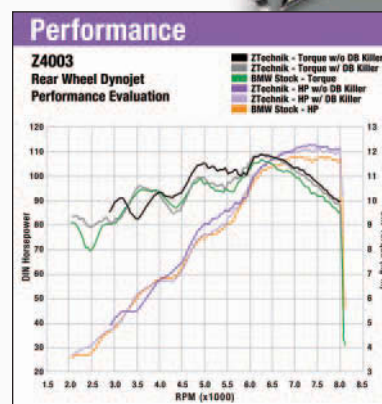

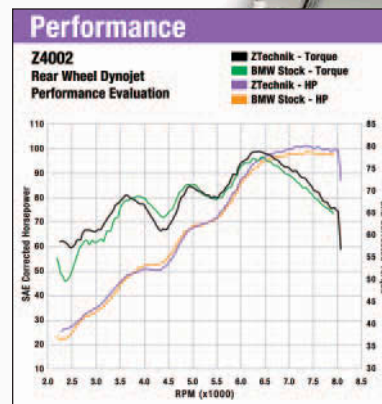

The Z4003 is a complete exhaust system with stainless steel headers and a polished stainless steel canister, while the Z4002 is the slip-on canister only. Both feature a removeable dB Killer™ baffle. Remove the baffle when you want that low roar without an increase in sound levels, or leave it in to enjoy the open road sounds when touring.

Whether you choose the Complete Exhaust System or just the Slip-On Canister, you'll appreciate a significant decrease in weight along with a pleasant boost in horsepower and torque.

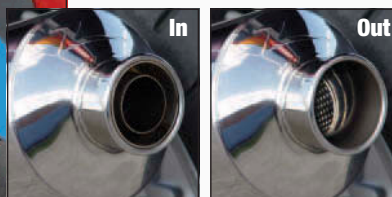

Needless to say, you'll enjoy a pleasant boost in overall appearance as well. The ZTechnik Z4002 and Z4003 are do-it-all systems that incorporates both style and performance.

**Your Engine Warranty Remains Valid When You Step Up to a ZTechnik Exhaust System!**

Z4002

The new ZTechnik Z4003 and Z4002 Exhausts features an easily removable "Decibel Killer", giving the rider a choice between stealthy quiet and a healthy growl.

# Lose 13 Pounds Overnight!

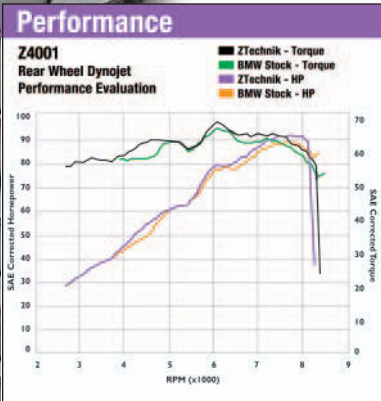

- Z4001** Complete Titanium Exhaust System
- Z9201** Emissions Canister Relocation Kit
- Z4001-001** Canister Repack Kit

Titanium – Stronger than steel and 47% lighter. Titanium is the ideal material for the new ZTechnik Z4001 exhaust. It's purpose-built for the step up from stock R 1100 S to ZTechnik sound and performance.

With the complex challenges of performance improvements, ZTechnik dialed in on what mattered most to the R 1100 S rider: power, reduced weight, looks, and that awesome sound.

When you step up to the Z4001 performance bar, you may be tempted to strip off the fuel emissions canister. But this is not recommended or even necessary.

ZTechnik's creative, do-it-yourself Z9201 modification kit for relocating the canister behind the shock produces a clean, streamlined look to your machine. And, it works with stock exhaust systems, too.

Your Engine Warranty Remains Valid When You Step Up to a ZTechnik Exhaust System!

You should repack your Titanium Exhaust System every 6,200 miles (10,000 km).
